Sep., 1947.

From: The Governor of HIROSHIMA Prefecture
To : Director of Police Bureau, Home Ministry.
Inspector-General of CHUGOKU District.
Commander-in-Chief of Second General Army.
Chief of CHUGOKU Army District.
Chief of Army Shipping Headquarter.
Commander-in-Chief of KURE Naval Station
Commander of HIROSHIMA Area.
Governors of neighbouring Prefectures.
Chiefs of each Department in the Prefectural
Administration Office.

Matters concerning to the personal damages by
the air-raid in HIROSHIMA-SHI on August 6.

(At the date of August 15.)

Personal damages by the air-raid happened in HIROSHIMA-SHI on August 6, in my jurisdiction is as follows the attached list. I beg to report (inform) the above.

Besides, there are many people who had been in HIROSHIMA-SHI and been sound at that time, but recently died. So it seems to increase the dead.

Dec. 27, 1945

From: Governor of HIROSHIMA Prefecture
Director of the Police Department of HIROSHIMA
Prefecture

To : Director of the Police Bureau of the Home Office
Directors of each Local Administrative Office
Inspector-in-Chief of CHUGOKU Demobilization Office
Director of the KURE Local Demobilization Bureau
Governers of neighbouring prefectures
Directors in the HIROSHIMA Prefectural Office
Matters Concerning the Personal Damages by the
Airraid in HIROSHIMA on Aug. 6.
(at the date of Nov. 30
except of Army and Navy)

As to the above mentioned matter we reported
(informed) you by sending HO-No. 255 dated Sep. 12, 1945
(investigation at the date of Aug. 25). But as this
airraid was a special attack, so among not only seriously
injured persons but persons, who were examined slightly
injured at that time, and moreover among persons, who were
not injured by this airraid, a good many died from the
so-called stom-disease as the day goes by. At present
nobody die from it, so we investigated it again which
resulted as just as the attached list. And we will
report (inform) it to you.

20 BC-Secret-special

August 27, 1945

From: Governer of NAGASAKI Prefecture

(Director of Police Department)

To : Chief of General Protection Board against Air-raids

Director of Police Bureau, Home Ministry

Director of Welfare Bureau, Home Ministry

Inspector-General of KYUSYU District

Chief of Staff of Western Army District

Chief of Staff of SASEHO Naval Station

Chief of Staff of KURUME-SHI Area

Chief of NAGASAKI Fortress

Chief of NAGASAKI Area

Chief of IKI Fortress

Chief of NAGASAKI Regimental District

Chief of Military Police in NAGASAKI District

Governers of each Province in KYUSHU

(Chief of each Police-Station and Fire Department
within the Jurisdiction.)

Matters concerning to the Damage-Situation by Air-raids on

8th and 9th (10th Report)

As to the damage-situation of NAGASAKI-SHI by the new
type bombs of enemy on August 9, I reported (informed) on

all such occasions. However if we synthesize the general condition about the attack-method of enemy planes, the condition of happening damages, the emergency policy for the calamity and etc, these are as just as follows.
So I beg to report (inform) the above.

(Chief of each Police-Station and Fire Department within the Jurisdiction should refer it).

Account

1. Circumstances about Issuance of Alarms.

07:48 Warning-alarm was issued for NAGASAKI and SASEHO Areas.

07:50 Air-raid-alarm was issued for NAGASAKI Area.

07:55 Air-raid alarm was issued for SASEHO Area

08:30 Air-raid alarm for NAGASAKI and SASEHO Areas were released

11:09 Air-raid alarm was issued for NAGASAKI Area.

11:10 Air-raid alarm was issued for SASEHO Area.

12:05 Air-raid alarm for NAGASAKI and SASEHO Areas were released.

16:00 Warning alarm for NAGASAKI and SASEHO Areas were released.

2. Circumstances about the Assault of Enemy Planes

a) Circumstances about the invasion of enemy-planes

Two planes of B-29 invaded in the Area at about 10:53 via the ARIAKE Sea and the Northern part of SHIMABARA Peninsular going westward from the North of KUMAMOTO-SHI. One of them, the leading-plane, invaded over the sky of NAGASAKI-SHI from the north-east direction at about 11:00, then the other one in rear invaded over the sky of the northern part of NAGASAKI-SHI from the same direction at about 11:02 and dropped the bomb. Then they turned back and escaped to the east direction at about 11:08 via the course of invasion.

b) Circumstances about the Bombing

Leading one of B-29 dropped three objects accompanied by parachutes (which seemed to be ejectors of electric waves and to have mighty equipments of electric discharge) from about 9,000 meters in height aiming the factory-zone in the northern part of NAGASAKI-SHI. AT the time when these objects fell until about 4,000 meters flying in the sky, the other one of B-29 in rear, invaded in the attitude of 9,000 meters from the same direction of the leading-planes and dropped one atomic bomb at about 11:02 aiming the central part of the factory zone in the northern part of the city. Then the rear turned back in haste and escaped eastward.

However, the atomic bomb dropped by the rear-plane was presumed to explode at about 40 seconds after dropping the sky of about 500 meters in height by the action of electric discharge of objects accompanied by parachutes.

c) The Power of the Atomic Bomb

As the result of investigation by the intensity of suffered grade of remains of construction and plants remained in the suffered places, it is judged generally as follows:

(1) Living creatures within the sphere of one kilometer in radius from the central point of explosion (the point of falling, straight down) were almost killed on the spot by the mighty pressure of explosion and hot wind. Houses and other constructions were destroyed to pieces and fires broke out. Besides many trees were cut off and burnt up both trunks and branches no matter if they were large or small.

(2) Living creatures within the area of one to two kilometers radius from the central point were partly killed on the spot and mostly injured severely and slightly. Houses and other constructions were completely destroyed and fires broke out everywhere. Besides, a part of plants was burnt up and blighted.

(3) Living creatures within the area of two to four kilometers radius from the central point were partly injured severely and slightly, by the scattered things accompanied with mighty pressure of the explosion, or burnt themselves partly. Besides, black-coloured materials caught fire. Houses and other constructions were half destroyed generally.

(4) A part of living creatures within the area of four to eight kilometers radius from the central point was slightly injured by the scattered things accompanied with pressure of the explosion. Houses were half or partly destroyed.

(5) Within the area of eight to fifteen kilometers radius from the central point, they felt a mighty pressure of the explosion and windows, glass, doors, sliding doors and others in houses were destroyed.

(6) This atomic bomb caused damages over pretty wide area. However, if there were mountains and hills, they cut off the pressure of the explosion and hot wind. So the backside of them were less damaged than flat grounds at the same distance.

3. Circumstances of Damages

a) The dead, injured and missed became clear till present time.

(1) The dead (who had subjected to the coroner's inquest)17,358
(2) The missed 1,887
(3) The severely & slightly injured23,739

These are numbers at the time of August 26, However, as I have reported already, the central part of damaged place was almost extreminated.

Only those who happened to ^{be} travelling outside the damaged place, and who was out or in the air-raid tunnel were not injured. As the leaders of town, that is the master of town's meeting and the master of Tonarigumi were dead or missed, we found great difficulty in investigation for exact numbers of the dead and injured. But there were some houses where all ^{of the} family were dead and another houses where all family but their master were dead, and we expect that the dead amount of 30,000 persons.

Now the census-taking for distribution of materials and the numbers of the survived in damaged place are under investigation.

Further, the severely wound ^{had} has been under treatment in the relief place continuously, but many of them, as already reported, were taken ^{up} inner disease, and dead from lockjaw and those who were slightly injured or almost have no wound in their surface, as times passed, excreted green diarrhoea, and found difficulty to eat and drink, and

DEF. DOC. #2491

felt nausea and were dead.

The death-rate was higher than I expected, and more than two-thirds of them were considered to be dead. As the result of dissection of the dead who was dead after severe ^{blow} wounds, there was no wrong in their respiratory organs but they inflamed their inner surface of the digestive organs, that is stomach and bowels, and were in the condition when they swallowed ratsbane.

(II) Sufferers

89,780 (21,174 families)

(III) Damages of Constructions

(1) Totally burned	11,494
(2) Totally destroyed	2,652
(3) Half burned	150
(4) Half destroyed	5,291
(5) Partially damaged	Constructions all over the city

After the dwelling-houses and the other constructions, at 82 towns area of one kilometer radius centered about KOMABA cho, MATSUYAMA cho, HAMAGUCHI cho, and SHIROYAMA cho which were regarded as the bombs dropped centre-point, were totally destroyed, most of the towns were completely burned by the outbreak of a fire. And at the 33 towns area of four kilometers centered at that center-point, the constructions were mostly half-destroyed and in some places the constructions were completely burned by a fire.

The area where the constructions were fallen and burned was the factory-zone north of the center part of that city. The area where constructions were totally burned was one-third of the city, they concluded. The Important factories, NAGASAKI Arms Manufactory of the MITSUBISHI Heavy Industries, NAGASAKI Steel Mill of the MITSUBISHI Steel Industry, were

completely ruined, and as well as the damages of the middle and small factories, Important institutions, schools, hospitals and etc, were extraordinary special.

(IV) Damages of factories and institutions.

(1) Important factories

As previously reported, in the important factories, MITSUBISHI-NAGASAKI Arms Manufactory, MORI Factory of the same manufactory, MITSUBISHI-NAGASAKI Steel-Mill, EGUCHI factory of MITSUBISHI MAGASAKI Dockyard, the constructions were totally destroyed and the machinery and the equipments were completely destroyed and became out of use. And moreover many of the employees at work in those days were dead and injured. On account of these circumstances the repair work was very difficult. And adding to that reason, as the hard and the stoppage of production became necessary owing to the sudden turn of the war, the repair work is not still set about.

(2) Cooperation factories and the other middle and small factories.

The damages of the factories cooperated with the war materials factories were extraordinary special, and 85 factories were completely destroyed or burned. In every factory machines and the other institutions were destroyed or burned, and besides many employees were dead and injured. By these reasons, restoration or the change

of production is now difficult.

(3) Important Supply

ZENIZA, URAGAMI, TAKENOKUBO and ASAHI MACHI Transformer Sub-Station of the KYUSYU Electric Power Supply Company, YACHIYO MACHI and OHASHI Factory of the NAGASAKI Branch of West Gas Company were burned to the ground.

The Chief Tunk line of water-pipe and the water-pipe at SHIMOKAWA Bridge, MIFUNE machi, SHIROYAMA Bridge and the other totally burned areas were destroyed and water supply became impossible.

(4) Telegram and Telephone Institutions

At destroyed area these institutions were completely burned and destroyed, and about 90 % of the telephone circuit in the city became impossible to use.

(5) Transportarion Institutions

The constructions of the NAGASAKI Station and the URAKAMI Station were compeletely burned. The railroads were partially damaged from the neibourhood of OHASHI bridge to the NAGASAKI Station and by the fall of the telephone poles they were impossible to use. A few cars were burned and destroyed in the station-compound.

(V) Damages of important Constructions as the attached list shows.

List of Investigation of Suffered
Main Constructions

1. Government and Public Offices

Extent of the Damage	Name	Seat
Completely	NAGASAKI Prefectural Office	SCTOURA-MACHI NAGASAKI-SHI

- 一、一〇九 長崎地區空襲警報發令
- 一一一〇 佐世保地區空襲警報發令
- 一一〇五 長崎佐世保地區空襲警報解除
- 一六〇〇 長崎佐世保地區警戒警報解除

二、敵機ノ來襲狀況

〔敵機ノ侵入狀況

B

29

二機

八時五十五分頃

熊本市北方方面

ヨリ西進シテ

有明海島原

半島北部上空ヲ經テ侵入セルガ先導機一機ハ十一時〇分頃東北方ヨリ長崎市上空ニ侵入シ後續機一機ハ十一時二分頃同方向ヨリ市内北部上空ニ侵入投弾シタル後反轉シテ十一時八分何レモ侵入經路經テ東方ニ脱去セリ

四

爆撃ノ状況

先導セル B 29 一機ハ十一時〇分頃長崎市北部工場地帯ヲ目標トシテ高度九、〇〇〇米位ヨリ落下傘附物体一電波放射弾ト認メラレ強力ナル放電装置ヲ有スルモノノ如シ一三箇ヲ投下シタルガ該落下傘附物体ガ空中ヲ浮流シツツ約四、〇〇〇米位ニ降下シツツアリタル頃後續機 B 29 一機ハ先導機ト同一方向ヨリ高度九、〇〇〇米位ニテ侵入十一時二分頃市内北部工場地帯ノ中心部ヲ目標トシ原子爆弾一個ヲ投下シ、急反轉シテ東方ニ脱去セルガ後續機ヨリ投下セシ原子爆弾ハ、落下後約四〇秒高度五〇〇米位ノ空中ニ於テ落下傘附物体ノ放電作用ニ依リ、爆發シタルモノト推定サル

四

(1) 原子爆弾ノ威力
被害現場ニ残存スル建物草木ノ残骸被害程度ノ濃厚ニ依リ調査スルニ概ネ左ノ如ク判断セラル
ニ
爆發中心點（直下點）ヨリ半經一杆ノ區域内ニアル人畜ハ強力ア

ル爆壓及熱氣ニ依リ殆ド即死シ、家屋其ノ他ノ建物ハ、滅茶々々ニ倒壊飛散シ且火災ヲ發生ス
尙草木ハ大小ニ不拘幹枝天ニ切斷セラレ、炎上セルモノ多シ

三 被害状況

一 現在迄ニ判明セル死傷者及行衛不明者

(1) 死者 (検視済モノ) 一七、三五八名
 (2) 行衛不明者 一、八八七名
 (3) 重輕傷者 二三、七三九名

右ハ八月二十六日現在ナルガ既報ノ通り被害ノ中心部ハ殆ンド全滅ノ状態ニシテ偶々被害地域外ニ旅行中ノモノ又ハ外出中若クハ横穴

(2) 中心點ヨリ半經一杆以上ニ杆ノ圓ノ區域内ニアル人畜ハ強力ナル爆風及熱氣ニ依リ一部ハ即死シ大部分重輕傷ヲ負ヒ家屋其ノ他ノ建物ハ全壞シ且各所ヨリ火災ヲ發生ス尙草木ハ一部炎上枯死ス
 (3) 中心點ヨリ半經二杆以上四杆ノ圓ノ區域ニアル人畜ハ強力ナル爆風ヲ伴フ飛散物ニ依リ一部重輕傷ヲ負ヒ又ハ熱氣ニ依リ一部火傷シ尙黒色ノ物質ニ引火シ、家屋其ノ他ノ建物ハ概ニ半壞ス
 (4) 中心點ヨリ半經四杆以上八杆ノ圓ノ區域内ニアル人畜ハ爆風ニ伴フ飛散物ニ依リ一部輕傷ヲ負ヒ家屋ハ半壞又ハ一部損壞ス
 (5) 中心點ヨリ半經八杆以上十五杆位迄ハ相當強力ナ爆風ヲ感ジ家屋ノ窓硝子扉障子等ヲ破壊ス
 (6) 該原子爆弾ハ平坦地ニ對シテハ相當廣範圓ノ區域ニ亘リ被害ヲ發生スルモ山岳丘陵等アル場合ハ爆風及熱氣ヲ遮リ其ノ背面地域ハ同距離ニアル平坦地域ヨリモ被害輕少ナリ

豪等ニアリタル僅少者ガ被害ヲ受ケザリシ程度ニシテ町内に長隣組長等ノ町内幹部モ死亡又ハ行衛不明トナリ正確ナル死傷者數ヲ調査スルコト困難ナルモ一家全滅シ又ハ職場ニ出勤セル主人ヲ獨シ家族全員死亡セル家族等アリテ死者ハ約三万ニ達スル見込ニシテ目下物資配給人口調査表及城災地生存者等ニ付キ詳細ナル調査ヲ行ヒツアリ尙重傷者ハ引續キ救護所ニ於テ治療中ナルモ既報ノ通り内臓疾患ヲ起シ又ハ破傷瘋ノ爲死亡スルモノ等相當數ニ達シ又被害當時輕傷ナル患者又ハ殆ンド外傷ナキモノ等モ毎日ノ經過ニ從ヒ綠色下痢便ヲ排泄シ飲食困難トナリ嘔吐ヲ催シ死亡スルモノアリ其ノ死亡率ハ豫想以上ニ高ク重傷者ノ三分ノ二以上ハ死亡スルモノト認メラル、重傷後死亡セル屍体ヲ解剖シタル結果呼吸器ニハ異狀ナキモ胃腸等ノ消化器内膜ニ炎症ヲ起シ恰モ猫入ラズヲ服用シタルガ如キ症狀アリ

罹災者

二、一七四世帯

八九七八〇人

家屋被害

一、一四九四戸
